

HORIZONTAL dp3®

WHEN PRECISION MATTERS

Compact. Ergonomic. Efficient. Those are the hallmarks of the Horizontal dp3®, which combines the technology of our 5000 Automatic Flow Dispenser with an easy-to-use fixture. The function of the unit is pneumatic, eliminating any flash source to reduce risks when using flammable fluids. The Horizontal dp3® features a compact system that can be installed on your production line, offline, and capable of being mounted to nearly any work surface. And, its environmentally friendly design means you can eliminate safety concerns and reduce the amount of costly chemicals being applied to substrates.
