

# BOTTLE HOLDER

## 10601 SERIES

### AIRTIGHT AND FLEXIBLE TO BOOST WORKFLOW

Our 10601 Series Bottle Holder is designed to ensure your fluid is free of contaminants, offering an airtight seal for standard one-liter or one-gallon manufacturer's containers. It's ideal for dispensing fluid using our e3mini® or e3multi® Precision Pump Panels and can be equipped with a level detection system.

### FEATURES:

- Uses Manufacturer's Containers
- Creates Airtight Seal for Dispensing Material
- Air-drying Desiccant
- Easy Container Removal or Exchange
- Dispenses to Multiple Material Lines
- Corrosion-Resistant Stand

### OPTIONS:

- Low Level Digital Sensor
- Load Cell Level Sensor
- Stir Plate (Pictured)
